

N2C : CONTACT CLEANER SPRAY (POWER OFF USAGE)

VERSION 1 - FEBRUARY 2020

WWW.MECATECH-PERFORMANCES.COM

DEFINITION

- ◆ Fast-drying cleaner very efficient on printed circuits, electronic cards, remote controls, potentiometers, electrical cabinets and boxes, connectors, sockets, contactors, switches, read-write heads...
- ◆ Thanks to its formula, the Contact Cleaner Spray dissolves and eliminates dusts, greases and oily deposits, which causes electrical contacts dysfunctions.
- ◆ Water repellent and anti-corrosion formula, eliminates moisture and protects from dysfunctions caused by damp and corrosion.

PRESENTATION

- ◆ Formulated without HFC (hydrofluorocarbons) or chlorinated solvents.
- ◆ Very efficient contact cleaner spray.
- ◆ Fast-drying product (less than 1 minute) that leaves no traces.
- ◆ Formula compatible with all materials: plastics, resins, metals, paints, elastomers...
- ◆ Thanks to its 360° valve this spray can be used in all positions.

OPERATING INSTRUCTIONS

- ◆ To be used on power off and cooled circuits.
- ◆ Shake the spray can, then spray at about 20 cm from the surfaces to be cleaned.
- ◆ Wait for the solvents to evaporate.
- ◆ Do not turn the power on until the vapors have evaporated.

PHYSICOCHEMICAL CHARACTERISTICS

- | | |
|----------------------|----------------|
| ◆ Colour | Colourless |
| ◆ Odour | Characteristic |
| ◆ Flash point | < 0°C |

SAFETY DATA

- ◆ Consult the SDS of the products available on our website www.mecatech-performances.com.

PACKAGING

- ◆ Packaging : 405 / 250 ml spray can
- ◆ Reference : 408012
